PROFILE

Full Stack Web Developer with solid experience in building modern, high-performance web applications. Currently a 2nd-year Software Engineering student (evening program), with expertise in cutting-edge technologies including Next.js, React, TypeScript, and Supabase. Detail-oriented and curious, I aim to contribute to innovative projects with a strong focus on quality, performance, and user experience.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

EXTEL | January 2026 – April 2026

- Design and development of high-performance, scalable websites and SaaS web applications.
- Technical SEO optimization (Core Web Vitals, metadata, server-side rendering) to improve organic search rankings.
- Integration of advanced animations (GSAP, Lenis) for smooth and engaging user interfaces.
- Implementation of secure authentication systems using Better Auth and session management.
- Automated transactional email delivery with Resend.
- Development of modern UIs with Shadcn/UI and data management with Supabase and MongoDB.

Stack: Next.js, React.js, Supabase, MongoDB, Shadcn/UI, GSAP, Lenis, Better Auth, Resend.

Intern – Full Stack Web Developer

JuniorsCV | June 2025 – August 2025

- Built a complete website with an admin dashboard for L'Escalier Consulting.
- Implemented a CRUD system with data validation using Zod.
- User authentication via Supabase (email/password, Google OAuth) with role-based access control.
- Designed a responsive and accessible interface (Tailwind CSS, Shadcn/UI, Lucide Icons).
- Deployed on Vercel with a custom domain and SEO optimization.

Stack: Next.js, React, TypeScript, Tailwind CSS, Recharts, Supabase, PostgreSQL, Git.

Freelance Virtual Assistant

SCALIKA TUNISIA | July 2024 – February 2025

- Managed social media accounts and automated administrative workflows.
- Strengthened skills in organization, communication, and remote collaboration.

Branch Manager

JUST ASK DELIVERY | April 2023 – February 2024

- Operational supervision and logistics optimization through team management.
- Implemented tracking tools to improve delivery punctuality.
- Developed project management and leadership skills.

Intern – Web Developer

Banque de Tunisie (BT) | February 2022 – April 2022

- Designed a remote IT asset management application (visualization, monitoring, control).
- Developed a real-time web interface for equipment status consultation.
- Automated system tasks using Shell scripts.

Stack: HTML, CSS, Bootstrap, PHP, MySQL, Shell.

ACADEMIC PROJECTS

Taskly – Task Management Web Application

Collaborative web app for creating, managing, and tracking team projects.

- Responsive UI with Next.js, Tailwind CSS, Shadcn/UI, and dynamic components (drag & drop, charts).
- Secure authentication and permission management via Supabase Auth.
- Business logic for managing projects, tasks, users, and sprints.

Stack: Next.js, React, TypeScript, Tailwind CSS, Recharts, AG Grid, Supabase, PostgreSQL, Git.

TUNIJOB – Freelance & Client Matching Platform

Mini dashboard allows users to post and apply for freelance missions.

- Secure CRUD system (PHP/MySQL) with role-based management.
- Application forms and job offer management interface.

Stack: HTML, CSS, Bootstrap, PHP, MySQL.

TUNIFLIX – Netflix-Inspired Streaming Platform

Modern streaming showcase site for browsing and watching movie and series trailers.

- Netflix-inspired dynamic UI with responsive trailer display.
- Modal integration for movie detail views.

Stack: HTML, CSS, JavaScript, Bootstrap.
